

Implementation

Cohort 3

Group 11

Team Aubergine

Joshua Wainwright, Piotr Koziol, Sarvesh Sridhar, Harrison
Barrans, Daniel Thwaites, Callum Newton, Arnav Jamidar,
Harry Turner

Part B

<u>Type</u>	<u>Name</u>	<u>License</u>	<u>Suitability</u>
Code Library	libGDX	Apache 2	Apache 2.0 Allows us to freely use, modify and distribute the library under any use case. The project is required to state if there have been any modifications to the library. Since we don't need to modify the code library, this does not affect us.
	OpenJDK 17	GNU General Public License 2.0	This license allows us to use, modify, and distribute Java 17 OpenJDK freely for commercial and non-commercial purposes. Modifications or derivatives of OpenJDK must be released under the same license, however we are not a derivative work, so this restriction does not apply to our game.
Assets	Roguelike Indoors	Creative Commons CC0	The CC0 licence does not place any restrictions on our development. Attribution is recommended but not required.
	RPG Urban Pack		
	Pixel Furniture	Free for personal and commercial use. Reselling and modification of Asset pack prohibited. Attribution is appreciated but not required.	The licence here is more informal with permissions just listed, however since we do not plan to simply resell or modify the assets, these restrictions do not affect us.
	Burger-man
